MIDDLESBORO IS PREPARING FOR PRIMARY

Voting Places for City and Officers Are Named.

INTEREST IN RACES

Eve of Sttae-wide Primary Finds Much Speculation As to Outcome—Polls Open at 6 A. M.

With the exception of a minor detail regarding voting places, Middlesboro is "all set" for the primary tomorrow. Ballot boxes have been received here and a number have already been delivered to the outlying precincts. Election officers for all the precincts in Bell county have been named by the county court clerk.

The four precincts in Middlesboro are: The City Hall, Opera House, South Side and West End. Those who live in the City Hall ward will cast their votes at the City Hall as usual. Voting in the Opera House ward will take place in the eastern room of the Manring theater. The vacant City Barber shop building will be used as polls for the South Side precinct. The voting place for the West End precinct had not been determined this afternoon. The Heaton electric shop building is usually used but the plans have been changed this election and a suitable place had not been found at last reports.

Sheriff Martin Green who, has charge of the election, has not been here today to designate voting places and the above were announced by R. M. Knipp.

All polls in Kentucky are scheduled to open at 6 o'clock tomorrow morning and remain open until 4 p. m. Returns by the elections officials will be made to the county court clerk at Pineville as soon as possible after voting has ceased.

The following election officers have been announced for the precincts in Bell County, the first name being the clerk, the next two the judges and the last the sheriff:

City Hall No. 8: Ed Sewers, R. B. Gibson, R. M. Knipp and E. M. Butler.

Opera House No. 19: W. O. Hickey, Wm. Wallbrecht, P. L. Day and B. I. Sparks.

South Side No. 20: James Fulton, A. T. Routh, C. O. Bowman and W. U. Oaks.

West End No. 20½: H. H. Overton, Charles Harrison, B. S. Gibson and Robert Lyons.

Turner No. 21: Riley Hodge, Milton Reece, James Bingham and Lewis Browning.

Stony Fork No. 12: J. C. Ausmus, Henry Myers, A. P. Williams and Marion Caffinan.

Hignite No. 13: E. L. Johnson, Albert Mayes, W. O. Roberts and Lawrence Vanbeber.

Bennett's Fork No. 11: Wes Parr, Tom Cann, J. R. Matthews and Jim Gillespie.

Straight Creek No. 5: Boyd Welch, Tom Elliott, J. A. Giffey and Gillis Wilson.

Gross No. 6: Elijah Helton, Benjamin Helton, Carter Helton and Mack Howard.

Wasiota No. 2: T. H. Durham, J. H. Knuckles, H. H. Asher and W. T. Roberts.

Four Mile No. 3: Nath Senters, Steve Howe, Everett Helton and James Hendricks.

Lone Jack No. 4: T. F. Gibson, W. T. Osborne, Lon Duff and Floyd Cobb.

Pineville 1-A: J. S. Chappell, F. S. Broughton, D. D. Faulkner and C. C. Simpson.

Pineville 1B: W. A. Miracle, B. F. Logan, Lon VanBeber and Robert Hollingsworth.

Pineville 1C: Nat Green, J. Y. Page, Robert France and Jeff Hammond.

Clear Fork No. 26:—G. W. Fields, W. A. Phillips, J. M. Stout and R. J. Crawford.

Ferndale No. 27: Nath Johnson, Lum Peace, J. C. Miracle and W. M. Romine.

Dorothy No. 24½: S. C. Greer, R. C. Calloway, Bill Green and J. L. McGeorge.

Sutty No. 25:—Fayette Foust, Bob Jones, Jr., Bob Jones, Sr., and Epraim Partin.

Excelsior: Dick Evans, Henry Potter, J. C. Barnett and J. Matt Evans.

Page No. 24:—L. D. Walker, Andy Davis, Albert Miracle and George Buell.

Little Clear Creek No. 7: Nathan Fuson, Tom Martin, L. B. Fuson and

(Continued to Last Page)

STREET WORK NOW WELL UNDER WAY

Nineteenth Street, Block of Eighteenth Now Being Improved by Street Crews.

Street work is now progressing rapidly in Middlesboro, there being crews now on three main projects, not including the bridge crew on East Cumberland avenue.

Work on Nineteenth street, from Cumberland to Lothbury avenue, was started today. The work here merely consists of scarifying and rolling the present pavement and the application of a new surface of asphalt. Considerable progress had been made on the work at noon and it is likely that this job will be finished tomorrow.

The block on Eighteenth street from Cumberland avenue to Queensbury Heights is now being graded. This block which extends by the Chero-Cola company. The Service garage and the Middlesboro Motor company will be built entirely of concrete as is the Cumberland avenue block adjoining.

Work continues on Exter avenue from Twenty-third street to Twenty-seventh street. The grading has been entirely completed and the work of constructing gutters and gutters will soon be finished.

"PUDDLE JUMPER" FAVORITE PLANE

Air Mail Pilot Plane Can Cut Down Weeds and Do Variety of Things In a Pinch.

Associated Press.

CHICAGO, Aug. 1.—The U. S. Air Mail puddle-jumper," so named because it gets in and out of pastures and other small areas to fix the airway lights, finds favor with Tex Marshall, veteran pilot.

"The old reliable D. H. planes with their 400 h. p. motors could not begin to get out of the small places we have to enter," Marshall says. "Puddle-jumper" is rather a complimentary term applied to the Curtiss 180 h. p. maintenance plane which operates from Maywood, Ill., to and from Iowa City, and Cleveland. It can cut weeds with its al metal propeller, making it possible to alight and take off safely in weeds that would badly chew up the wooden parts of other propellers.

"We like it because of the big fat wheels, the 'puppy feet,' we call them. The radiator in the upper wing contains the water and envelopes the gasoline tank. The 33 foot hi-lift wings, 7 feet 4 inches wide and nearly a foot in thickness, enable the ship to land slowly, therefore allowing it to enter and leave very small fields. We have been in grain fields with the stalks standing waist high.

"One of the first official ships to carry a typewriter is this plane. The electrician holds it on his knees while in flight, observes what needs to be done to some of the lights as seen from above, types the instructions, wraps up the necessary materials along with the message with a long white tail attached, and drops the packet overboard to the waiting caretaker below."

WORK ON PARKS EAST END FINISHED

Old Slag Removed and Replaced With Fresh Dirt—to Be Sown In Grass.

A street improvement which enhances greatly the appearance of East Cumberland avenue is the filling of the parks along the street. The work has been entirely completed and the city flusher truck cleaned around them yesterday.

Slag was taken from the beds inside the park curbings and was replaced by fresh dirt. Grass seed will be sown in these places and, it is understood, that the work will be done this year.

The work of removing the slug and refilling with dirt was let out on contract. A number of men with teams have been engaged in the work for several weeks. When the parks are covered with grass the East End street wil present one of the most beautiful driveways in this section of the country.

France Produces Less Iron.

By Associated Press.

PARIS, Aug. 1.—The claim of some economists that France is the "iron-master of the world" is disputed by recently published figures. These show the production of iron to be 590,000 tons a month and of steel 551-000 tons. These figures are 15 percent less than the 1923 output.

SAYS BRITIAN SHOULD ADOPT GOLD STANDARD

World Would Feel Effect Putting Pound on On a Gold Basis.

ENGLAND DOUBTFUL

Scotch Professor Gives Interesting Data on Monetary Conditions in the British Empire.

By Associated Press.

LONDON, Aug. 1.—"The fate of the gold standard is so much dependent upon British monetary policy, that England is simply bound to take the lead in the restoration of the world's monetary system. It is impossible for England to wait and see."

This statement was made by Professor Gustav Casel of Stockholm University, regarded as one of the greatest authorities on world monetary conditions, in the course of a lecture to the Institute of Bankers.

If the pound sterling, he asserted, were again put on its old gold basis, the whole world would feel that the gold standard had regained something of its old reliability, and the doubts as to its trustwortiniess would no longer stand in the way of a return to it.

Yet England, the speaker said, hesitated to take the decisive step. There was a general fear in the public mind in Europe that there was likely to be a new rise of prices in America. He contended that this doctrine must be rejected. The conclusion must be that some rise in prices in America was possible, but by no means necessary

Professor Casel said it was very much against the financial interests of the United States to allow the value of gold to be seriously depressed by an internal inflation, and still more by such a violent measure as the prohibition of gold imports.

"If the United States really feel gold imports a nuisance," Professor Casel added, "the easiest and most natural means to avoid them is to do away with the highly protectionist tariff which prevents Europe from paying her debts in commodities. With free trade, America would get more of useful commodities and less of non-useful gold."

Treasury authorities here are inclined to believe there will be no return to gold currency at least before 1929. It is pointed out there is a new price level since the war, far more money is in circulation, and there is not enough gold bullion and reserve here to meet the requirements of a reintroduced gold currency.

ROBBER KILLED.

Opened Car Door and Shot by Detectives From Within

By Associated Press.

WILSON, N. Y., Aug. 1.—Lowering himself by a rope ladder down the outside of a moving freight car, Frank Gardner, of Niagara Falls, broke the seal, opened the door and was fatally wounded by fire from two detectives concealed within the car. The detectives concealed themselves in the car filled with merchandise in an effort to thwart frequent freight train robberies. Gardner apparently rode on top of the car for some time before using the rope ladder. Several other men, believed to be partners of Gardner, escaped.

GOOD MYSTERY STORY SPOILED

Mysterious Package Thrown Into the Ohio River Was Not the Work of Criminals

By Associated Press.

NEWPORT, Aug. 1.—Scenting a possibility of a major crime, a committee of police from Newport and Cincinnati are today investigating the report that two men were seen alighting from an automobile and hurl a large package into the Ohio river from the Central bridge. The package was about four feet long and wrapped in white cloth. The machine sped toward Cincinnati after the package was dumped. The license was obtained under a fictitious name and address, the investigation revealed.

NEWPORT, Aug. 1.—Mystery surrounding the large package thrown into the Ohio river disappeared today when Joseph Siebert, of Dayton, Ky., asserted that the package contained high explosive gun powder which his employer requested him to dispose of as a precautionary measure.

GOMPERS NOT TO LEAD OPPOSITION

Labor Head Declares He Will Not Oppose Candidary of La-Follette.

By Associated Press.

ATLANTIC CITY, N. J., Aug. 1.—Samuel Gompers, president of the American Federation of Labor, declared today after an initial session of the executive council of that organization, that he will not lead the opposition to the La Follette candidacy if it arises before the council.

TAKE NOTICE YE WHO WOULD MARRY SOON

Everything Furnished Down to the Officiating Minister

MUST LIVE ON FARM

Something Nice for Young Couple Who Would Marry In October—No Conditions Asked.

Do you expect to get married—young lady, young man? Here is a nice opportunity to hop into matrimonial hobbles on Oct. 11, the last day of the Middlesboro Harvest Festival and Fall Circus which will be held on Oct. 9-10-11. No, the Middlesboro Daily News is not a matrimonial paper but is always willing to further any good object. That's why the News will give a two year subscription by mail and a free package of farm home stationery to any young couple residing on a farm or expecting to make their future home on the farm who will come to Middlesboro on Saturday, October 11th and enter into the bond.

Conditions, ask you; no conditions at all. Just come to the News office on the afternoon of that date with the license and the knot will be tied by one fully accredited to perform the ceremony and you will receive a receipt for full two years to the News and 500 letter heads and 500 envelopes printed on bond paper with the name of your farm home, and your own name and address printed on the best quality of bond paper.

The American Legion boys will form a guard of honor, the band will play Lohngrin and the merry citizens will congratulate you and wish you a long and prosperous matrimonial journey through life. You will have the biggest wedding ever and it will be something for you to look back on through the years of the future. You're next—let us hear from you.

Visitors Like Middlesboro

Mr. and Mrs. C. M. Hall and family of Cincinnati are here for a few days vacation. It is the first trip of the family to the mountain sections and they are all delighted with the scenery, the town and general surroundings. Mr. Hall is a representative of the Intertype Corporation, of Chicago.

LINCOLN NATIONAL PARK

(An Editorial)

There is hardly a child in the United States who has passed through the public schools up to and including the eighth grade, who has not heard of Cumberland Gap. As a place of historic interest it ranks with Plymouth Rock and Faneuil Hall. Through its rocky pass, the first pioneers went into the great west—the west that has played such an important part in the development of national life in the United States.

Just now the people of Middlesboro and this entire section of Kentucky, Virginia and Tennessee are interested in seeing the founding of a great national park that will embrace the Cumberland Gap section. Not only will this park be a fitting memorial to the pioneer fathers who passed through the Gap on their way into the unknown west, but it will be of great economic value to the entire section of which it forms the center.

In another column of this issue, will be found an article reprinted from a Knoxville paper relative to the park situation in the Appalachian section of the United States. A great national park will be founded somewhere within two hundred miles of Middlesboro. It is a proposition up to the people of this section of Kentucky whether this park will be at Cumberland Gap or some other section of the Appalachian belt. In this selection those who will fix the site will be guided largely by the interest demonstrated by the people of the section in which the park is finally placed.

A little over a year ago, the park matter first came before the public, and since that time it has been of absorbing interest to everyone. At one time it seemed that the proposition to establish a park at the Gap had gone glimmering and that another section would secure the site. However, through the efforts of Congressman John M. Robsion and the business interests of this section of Kentucky, Tennessee and Virginia this project was defeated. Now the entire park site project is thrown open again and it will be through the efforts of these people alone that the park will come to the Gap, if it comes.

There should be sufficient local pride in this park, to bring out every voter to the primary tomorrow. There should be sufficient pride of ancestry in the grandsons and daughters of the pioneers who crossed with Boone to the Dark and Bloody Ground, to bring them to the priamry tomorrow. There should be sufficient local pride and common interest for everyone to submerge party, politics and individual interest in any candidate and bring them out to the support of Congressman Robsion, tomorrow.

This man, your congressman, has done more for this section than any congressman you have ever had from the Eleventh Kentucky District, and the Eleventh District has had splendid congressional representation. The proposition is up to you—the voters. Do you want a park—Lincoln National Park? See that you get to the polls tomorrow, and when considering how you shall cast your ballot for a congressional nominee, consult your own self interest, and vote to retain the only one who can accomplish anything in this crisis of our affairs, as a city and a section.

The making of Lincoln National Park at this spot will commemorate the name of the Great Emancipator; commemorate it in the state where his eyes first saw the light of day; commemorate it at a spot that was part of the battle grounds in his fight for human liberty; commemorate it in the hearts of a people that are his people. Your vote tomorrow is an index of your wishes in the matter of Lincoln National Park.

Court to Hear Evidence in Mitigation of Punishment

Ignorant Nephews Are Now Doomed to Civilian Life

Who is the president of the United States? What is the largest city in this country? What ocean is at the east of the United States? At the west? What city is the national capital? The state capital?

If you can't answer these difficult questions and a few others along that line you are doomed for life as a civilian; Uncle Sam now asks these questions to all who would become members of his military family and, we are informed, many who ardently hope for a chance to exchange blue serge for khaki go away sorrowing.

The Middlesboro recruiting officer, however, says that recruiting regulations will probably be less stringent in the near future. There are few demands for soldiers now and for this reason the literacy test is being used and the maximum of physical qualifications is required.

SHOTS FIRED ON HOME OF MINER

Gen. Kehoe Goes to Scene of Trouble —Negro Cabins Home Fired On.

Associated Press.

FRANKFORT, Aug. 7. Adjt. Gen. Kehoe left Wednesday to meet Maj. William A. Clark, Jr., at Carlisle, in a personal report of conditions in the western coal miners' strike field.

Major Clark, in charge of observation officers in Webster county, reported a series of shootings today, but no casualties.

One disturbance was reported to the county attorney at Madsonville. About fifteen shots were fired into the home of John Crutchfield, negro miner, employed by the Reinecke Coal Mining company. Shots were also reported at the home of Jack Mitchell, negro. Automatic pistols and rifles apparently were used, Major Clark said.

Flying bullets, fights, cuttings and beating still warrant close watching by the observation officers, Major Clark informed General Kehoe before the latter's departure. Former employes of the Norton Coal Mine have been arrested for confederating, he said.

Major Clark is temporarily stationed at Providence.

Louisville Livestock

Cattle, 150, slow and unchanged; hogs, 1,000, fifty cents lower; $5 to $9.50. Sheep, 2,100, steady and unchanged.

BURLEYS MAKES BIG GAIN IN MEMBERS

Burley Tobacco Association Gains 921 Members During Month of July.

Associated Press.

LEXINGTON, Aug. 1.—The Burley Tobacco Growers Co-operative Association gained 921 members during July, according to a report of the field service today. The total membership is now more than 105,000 and is believed to be the largest of any American co-operative association. Two hundred and eighty-five new members are of Kentucky. The others are of Tennessee, Indiana, West Virginia, Ohio, Virginia and Missouri.

Tercentenary of Fox Is Honored In London

By Associated Press.

LONDON, Aug. 1.—The tercentenary of the birth of George Fox, founder of the Society of Friends, was celebrated at his birthplace, the small village of Fenny Drayton, Leicestershire July 5. Quakers from America and from all parts of England gathered in the village and took part in the ceremonies.

The Angelican Bishop of Peterboro sent a message to the meeting which was read by Elbert Russell of Philadelphia, at the conclusion of his address.

A visit was paid during the day to the parish church where there still exists the font in which Fox was baptised and which was for many years used as a village horse trough.

Court to Hear Evidence in Mitigation of Punishment

Franks' Murder Was "Intellectual Feat of Loeb.

ALIENIST TESTIFIES

After Two Days of Argument, Judge Rules Mental State Evidence May Be Heard on Stand.

Associated Press.

CHICAGO, Aug. 1.—The kidnapping and murder of Robert Franks was planned as an intellectual feat on the part of Richard Loeb, according to testimony given today in the hearing to decide punishment for him at Nathan Leopold.

CHICAGO, Aug. 1.—Judge John Caverly today overruled objections by the state to alienist testimony offered in mitigation of punishment by attorneys of Nathan Leopold and Richard Loeb. The result, coming after more than two days of argument in the court, was a decided victory for the defense.

The decision is momentous in the legal annals of Illinois as no exactly similar situation has been found by attorneys of either side arising the question of the right to give testimony on mental disease short of legal insanity, not as a defense but in mitigation of punishment.

"The court will duly hear the evidence," the judge said. "It is not its duty to reject it before it has had the opportunity of hearing it and the objection of the state is overruled."

Immediately, Dr. William White, alienist, took the stand. The prosecution blocked efforts to bring in speculative opinions regarding the influence of home environments. The judge ruled that he might testify what he had learned about the defendants, and also state the relative importance of such conditions. "It is highly important," White stated.

"Blues" to Play U. T. C. Saturday Afternoon

The boast of the Union Tanning company baseball team of never having suffered defeat has aroused the ire of the Big Ben Blues who have flung out a challenge to meet the allegedly undefeatable team. The game will take place at the East End ball park at 2:45 o'clock Saturday afternoon.

Capt. Brake, of the Blues, having changed his line-up completely, added several players and put his team in good shape is going to put up a good fight for the game. Everybody is urged to come out and give the industrial teams a boost. Admission will be twenty-five cents.

Irish Judges Unable to Understand Gaelic

Associated Press.

DUBLIN, Aug. 1.—A recent attempt to compel railway companies in the Free State to print their announcements and tickets in the Irish language only, or in both Irish and English, was vigorously opposed by Senator W. B. Yeats, the poet, who in the course of his address revealed that he had tried to learn Irish and failed, as he had always failed to learn any other language than English.

A strong feeling has manifested itself in favor of making this country bilingual. Irish is compulsory in the schools, and in the Law Courts it ranks equally with English. It is but rarely employed, however, and when it is, causes some embarrassment to judges and counsel, most of whom are ignorant of it. Occasionaly an attorney put in an affidavit in Irish only, and the Court permits an adjournment until counsel have succeeded in obtaining a translation.

DAVIS PLANNING BRIEF CAMPAIGN

Work of Perfecting Organization to Come Before Speaking Program.

By Associated Press.

NEW YORK, Aug. 1.—A comparatively short but vigorous campaign is the plan now of John Davis, Democratic presidential nominee, Clem Shaver, his campaign manager, disclosed today. The speaking program is still held in abeyance pending the more important task of getting the organization perfected.

LAST HOUR CANARDS

Last hour canards are to be expected in all political campaigns They are at the best very poor weapons and delude very few voters They are reprehensible to say the least both on the part of opposing candidates and the newspaper that allows the use of its columns for the promotion of such propaganda But especially reprehensible is the act of the hands of a newspaper that has been supporting a candidate throughout the campaign and then at the last hour comes out strongly in leading articles for one of his opponents

A newspaper through its very nature is a public servant That it is a vehicle for making adequate returns for the investment no fair minded person will deny But after all it owes a duty to the public and when it submerges that duty for self it becomes an object of contempt in the mind of every fair minded man and woman Last hour flops to any candidate are bound to be viewed with suspicion by the great mass of voters There is little of the mercenary instinct in the American voter As a rule he or she especially the latter is fair minded and cast their ballot for the common good as they see it no matter what their political affiliations

Knavery in the public print never gets very far with thinking people and the people of the 11th Kentucky congressional district are a thinking, discerning sort of people Descendents of American stock, educated and refined, they go to the ballot box with the sense of public duty uppermost in their minds and the sense of fair play ever in the vanguard of their political actions The actions of the newspaper that prostrate its columns for private gain cannot help but be looked on with contempt by this mass of thinking people

LABOR WILL NOT GO TO ANY ONE CANDIDATE

The active speaking campaign of the political parties will not start until after the candidates on the several tickets have been formally notified that they have been chosen by their conventions After these notifications have taken place the country may look for numerous speakers to appear on the stump and present the claims of the parties for whom they speak

While it is true that certain men claiming to represent organized labor, have stated their preferences, it is a well known fact that labor that is, the body of men making up the rank and file of the different organizations deeply resent the treatment labor received at the hands of the democratic convention when the Davis managers ruthlessly shoved George L Berry leading democratic candidate for vice president to one side for "Brother Chas" Bryan, despite the fact that Berry's friends had been told by the Davis adherents that he, Berry, would make a most acceptable running mate Major Berry's slap in the face by the Davis folks has also caused the veterans of the world war to deeply resent the cruel and unnecessary treatment of one who served with distinction in the world war

The talk of labor being solid for the independent candidate or any candidate, no one takes seriously Labor, farmers, business men, clerks, or any other body of citizens cannot be delivered by anyone to any candidate American citizens cannot be bossed around like sheep Labor, or any other body of citizens, cannot be fooled by beautiful phrases or by proposes which any thinking man knows cannot be fulfilled.

Tom Sims Says

Ex loafers never cure ailments

Stumbling blocks are stepping stones you tripped over

Feeling sorry for your self make the feeling unanimous

Hot paper doesn't draw as many flies as limousine do friend

This is the time of year you can swap an overcoat for anything

The most expensive thing about a house is a family

Time it gets cool enough to sleep it is almost time to get up

A stiff breeze may blow a fortune can make feel like

Nature give the kinds of people more than they need

Things could be worse If you are reckless this hot weather you may land of the gang in jail

If we become what we eat is a lot of us may not be long for this old earth

Our idea of the football pennant winner is that we'll have a long dry spell if it rains

Picnic ants will tell When provisions you carried a day to it on the kettle fell for

The Turk is early riser among lands not proving however that rises early is a Turk

The trouble with a man blowing his own horn is he usually blows it to beat the band

Many of those living on the fat of the land are living on the fat headed of the land

A woman want to climb the social ladder because then those below will look up to her

Being human is a hard life, but suppose we were microbes Take about a billion microbes to be a crowd

French Coal Output Increases

By Associated Press

PARIS, Aug 1—The coal output of France cut in two by German devastation, continues to increase and in January went beyond the prewar point The French mines now turn out about 15,000,000 tons a year, a tenth of which comes from the Lorraine mines.

ALIEN LAW IS KEEPING MANY CUBANS HOME

200,000 Who Planned Coming Here Denied Now.

CHIEFLY SPANISH

Vice-Consul Says Many Came to Cuba With Hopes of Later Coming to the States Now Barred.

By Associated Press

HAVANA Aug 1 The new American immigration law which became effective July 1 has barred the doors to approximately 200,000 persons from every part of the world who had come to Cuba expecting, to go to the United States according to Vice Consul F M Fisher in charge of passports in the American consulate general here

The sharp decrease in quotas from Latin and Southern European countries and the change in regulations make it improbable that more than one percent of the would be immigrant contingents get into the United States during the next 12 months and many declare openly that under the condition they will take direct any chance of being smuggled over to Honduras or to any port A few months in jail and forcible deportation is the only penalty A few at first will go to South America but the majority declare they will eventually return to their native land

Nearly three fourth of the men women and children who gather daily by the thousands and clamor for passports to the States are Spanish The next largest element consists of Jamaican negroes of whom there are approximately 10 000 while Mr Fisher estimate that there are 10 000 Jews of various nationalities and about 500 to 600 emigrants of German Greek Russian Polish Turkish Syrian and Armenian and score of Rumanians Czecho Slovakians Jugo Slavians Persian and Chinese Chinese and native African negroes have never heard of nationality that is not represented in Cuba

In addition there are some 10 000 Chinese and a scattering of Japanese in Cuba who only hope to be smuggled into the United States

The Spaniard fits well into Cuban life and are represented in most of its industries throughout the island while the Chinese in the last few years have started truck farms in the suburbs of Havana and are supplying the city with fresh vegetables etc are operating small stores here but most of the other immigrant appear to be living from hand to mouth and declare they cannot settle down and live anything in a country where common labor makes $1 to $1 50 a day and where floating labor finds a ready market job in the dull summer months

A few immigrant peddle small articles in the streets or work for a few dollars a week for residents of their own nationality and a Jewish aid society extends what help it can to persons of that faith but according to Mr Fisher literally thousands are being supported by relatives in the United States or are living on their savings

Many of the immigrants have lived for years in the United States without taking out naturalization papers and on visiting their native lands overstayed the time limit and now cannot return Most of the immigrants are persons who were refused American passports visas in their own countries and came to Cuba hoping to get into the United States under the provisions of the former immigration laws

ASKS EPXLANATIXON OF ROAD CHANGES

State Highway Commission Requests to Explain to Federal Department

FRANKFORT, Aug 1—An explanation as to its reasons for requesting the cancellation of a project agreement between the commonwealth of Kentucky and the United States government for the construction of a part of the Dixie Bee Highway in Henderson County was asked of the State Highway Commission by the United State Department of Agriculture, bureau of public roads

The invitation for the explanation was in reply to a request from the State Highway Commission that the federal government withdraw the federal aid which it had given toward the construction of three miles of the Dixie Bee line in Henderson County, south of Cairo The request was made by the commission following a meeting in March when an order was entered changing the location of a three mile stretch of the Dixie Bee line in Henderson County from that which had been recommended by the federal and state engineers approved by the old State Highway Commission accepted by the federal government and a contract let for its construction

The route or location approved by the commission and accepted by the federal government does not follow the present highway but turns off from it just before it reaches the little town of Nelson At the time the old highway commission let the contract to Cerum Brothers Madisonville for the construction of the road Henderson County put up $12000 In March of the year a delegation of citizens from Henderson County appeared before the present State Highway Commission and asked that the road be constructed along its present route instead of the location agreed upon by the old State Highway Commission and the federal government The commission agreed to the request of the delegation and notified the federal government that it expected to construct the road along the present route with the fund and asked the federal government to withdraw federal aid over the old route

In a communication to the State Highway Commission Vosh chief engineer of the bureau of Vosh said that when the request for the cancellation of the project agreement was received he took the matter up with the chief engineer who said that he could see no real reason for allowing the withdrawal of the project inasmuch as the improvement on the direct location was approved by the State Highway Department and a binding agreement entered into for its construction The chief engineer according to Vosh will consider it entirely unnecessary for any change to be made affecting the location and believes the state should complete the project in accordance with the agreement entered into

INTEREST CENTERS IN STANLEY RACE

Senator Stanley Opposed by Howe In Democratic Primary Saturday

By Associated Press

FRANKFORT Aug 1—The chief interest of Saturday's primary lies in democratic and republican nominations of candidates for the seat of the senior senator from Kentucky, United States Senator A O Stanley

Interest picking up this last week of the pre primary campaign, today reached its climax with the primary about twenty four hours away

The democratic primary for the senatorial nomination holds interest all over the state Senator Stanley is ending his speaking tour in the eastern and central region of Kentucky John J Howe, Carrollton, Commonwealth's Attorney for two terms is finishing in his opponent's, the senator's home territory

The battle for the ballots has been mostly one centered around the senior senator's record in congress The Woman's Christian Temperance Union and the Anti Saloon League through pamphlets, and in appeal to the women's vote, has endorsed not only Howe but the two republican candidates

Senator Stanley spoke at Frankfort Wednesday night, at Lexington last night, and his schedule called for his appearance at London and Corbin today

The senior senator from this state was born in 1867 at Shelbyville the son of the Rev William and Amanda Owsley Stanley, and besides serving as United States Senator, was governor and elected to the 58th 59th 60th 61st 62nd and 63 rd congress

Fred M Sackett of Louisville, recently resigned from the state board of charities and corrections and Judge B J Bethurum of Pulaski county and Lexington former legal adviser of the state prohibition department are in the republican primary Political activity has been reported but little oratorical fireworks

The fight to defeat Senator Stanley ending into the republican camp brought a bitter on fought from both democrats recently when discussion grew over possibilities of Howes forces Telling the party which Howe promptly denied

CHRISTY BROTHERS PARADE FEATURE

Good Horses and Plenty of Them One of the Big Cards on August 11th

The movement which was attempted a few years ago to eliminate the parade feature of show day has signally failed—Christy Bros Famous Wild Animal Exhibitions were instrumental in returning that part of the show which is enjoyed by thousands who are not able to attend the performances When this enterprise visits Middlesboro on Thursday August 11 giving two performances—at 2 and 8 P M—the population will turn out en masse, for they have the reputation of making a street parade well worth taking time to see

While quite a percentage of the people own automobiles and appreciate them, every man, woman and child admires a beautiful horse For years the name of Christy has been synonymous for "fine horses" because they personally take great pride in horse flesh When they first embarked in the show business, they adopted as a slogan "the finest horses of any show on earth," and that they have lived up to it has been proven by the millions of people who have seen the Christy Bros parade

Christy Bros shows have always been credited with having the best trained wild beasts ever exhibited and the display of wild animals in the open cages adds an unusual feature to a parade that had already gained a national reputation because of its brilliancy and novelty

According to the daily schedule, it is the plan to have the parade on the streets at noon and this is generally done The very nature of the tented show business, however, subjects them to unexpected delays at times and they cannot always guarantee to be right on the dot But rather than miss the grandest street parade the most pleasing one ever witnessed, the public is urged to be in good positions to view it at the usual hour—twelve o'clock noon

PROPER LUNCHES FOR AUTO TRIPS

Canned Goods Should Be Taken—Dairy Products, Eggs, Can Be Procured

The season is fast approaching, for the auto traveler to start on the annual summer tour and camping trip. Sky and earth both conspire to lure the lover of outdoors into the open, and many plans are now being made for motor trips. Some few people prefer to stop at the towns along the way, but many enjoy the trip in a well equipped touring car with camping outfit attached replenishing the necessary supplies in towns through which they pass.

The planning of the lunch is, of course left to the women of the party to whom the suggestions here given may be of help in purchasing her stock of goods and the preparation of the food which is taken on this trip.

Butter, eggs milk and fresh meats can always be purchased along the way but in order to have variety, some canned goods should be carried along, such as salmon tuna fish Pork and beans—the old standby—chili concarne, which is always popular, a few cans of soups and some of the family's favorite coffee, for the hot coffee plays an important part in the campfire meal. Salad dressing is always good to have on hand and will keep during the entire trip. And on camping trip is complete without frankfurts and bacon both of which may be purchased in boxes, just enough for one meal.

Then for the dessert—for even a meal of this kind does not completely satisfy without something for dessert. One of the handiest things to carry, and one that keeps best is cookies—especially home made cookies. Cookies with a fruit center rolled or filled cookies, hermits or others similar keep moist a long time. These can be prepared a day or two in advance, and if properly packed will be just as good on the last day of the trip. Cake is probably a little too difficult to serve and to carry along. Cookies, however, take the place of cake and every one will enjoy them. If desired cake and even ice cream can be bought most anywhere enroute.

SWEETS FOR USE ONLY AT MEALS

Expert Declared Lolly pops and 'All Day Suckers' Are Menace to Children

'No sweets for children except after meals.' The sweets given at this time should be taken in the place of some food. Eating sweets between meals [illegible] appetite for wholesome food. It has been found that children who eat sweets all the time refuse mild foods like milk and vegetables, being tempted by highly flavored foods and more sweets. The use of sweets cause poor teeth by destroying the desire for the bone and tooth producing foods which are milk and green vegetables. Sweets left in the month form breeding places for germs of decay. This is the opinion of Dr Juanita Jennings of the State Board of Health.

A great menace to child health is the wide-spread use of lolly pops or all day sucker. Children suck the candy on the stick while remove it from their mouths wet with saliva then put it down where germs dirt and flies collect on it. Later sucking is resumed with a long drawn out process of sucking and licking the extra dirt and germ which it has collected. Often they swap all day suckers. This was seen when two children were playing together—one had an all day sucker. After sucking it she laid it down the other child began sucking it. The first child happened to be a diphtheria carrier but was immune to diphtheria. From the germ covered lolly pop the second child developed diphtheria.

Silly mothers give children all day sucker to keep them quiet. A mother remarked recently that she had promised her boy aged three an all day sucker for July 4th so that he would not beg for fireworks. The mother failed to realize that she would ruin for the day her child's appetite for wholesome food and would teach him a horrid habit besides creating in him a desire for sweets, or that she had bribed him to do without the fireworks instead of making him understand their danger to little children. The habit of sucking lolly pops is nasty as well as dangerous.

SUMMER MENUS

Blueberry Muffins
Iced Cocoa
Dinner
Shrimp Cocktail
Sirloin Steak
French Fried Potatoes
Stuffed Tomatoes Mayonnaise Dressing
Rhubarb Pone
Coffee

French Dressing

1 tablespoons salad oil
2 tablespoons lemon juice or vinegar
½ teaspoon salt
1 teaspoon pepper

Place a small piece of ice in a bowl add the oil and lemon juice or vinegar.

Beat with a fork until the dressing is thick. Remove ice and place the dressing in a cold place until ready to serve.

Mayonnaise Dressing

1 teaspoon each mustard salt and sugar
Few grains cayenne pepper
Yolks 2 eggs
2 tablespoons each vinegar and lemon juice
1 cup salad oil

Mix dry ingredients, and egg yolks, and when well mixed add oil gradually drop by drop at first. Stir constantly. As the mixture thickens thin with vinegar or lemon juice. Add oil and acid alternately until all is used, beating constantly.

All the ingredients should be kept cold while making this dressing. A good method to follow is to place bowl in which the dressing is being mixed in a pan of chopped ice.

Thousand Island Dressing

1 cup mayonnaise dressing
1 cup whipped cream
2 tablespoons chili sauce or catsup
2 tablespoon minced pimento
2 tablespoon minced green peppers
1 tablespoon chopped cucumber
1 tablespoon chopped nuts
1 tablespoon Worcestershire sauce

Mix in the order given and use at once.

PUBLIC SERVANTS TO CONFEDERATE

Men and Women to Form International Federation—Includes Teachers

By Associated Press.

VIENNA Aug 1—Men and women engaged in public service, especially teachers will soon have an international federation similar to the international federations of trade unions. In connection with the international trade union congress held here early in June there was also held a meeting of representatives of Austrian French Dutch, German and Czecho Slovak organizations of civil servants. These decided to call into life a civil servants international with a teachers' sub section.

The date for the first international congress, at which the organization is to be definitely launched has been fixed for October 27, and the convention city will be Paris. It is expected that British and Belgian organizations will also be represented. Some 7,000 French 5,000 Austrian and 7,000 German organized teachers have already declared their readiness to affiliate.

HOUSEHOLD SUGGESTIONS

Egg Beater

Never put an egg beater to soak and never let the cogs get wet.

Keep Cellar Closed

During the hot weather keep the cellar closed by day and air it out at night. It will be drier if the hot air of the day is shut out.

Saves Time

If the first course of your dinner is a cold course you can save time by having it on the table when the meal is announced.

Watch Your Drugs

Never keep drugs in your medicine chest for more than a year unless you are sure they are the sort that do not deteriorate.

Wash Dish Towels

Wash your dish towels at least once a day in hot water and soap. Hang out of doors if possible if not on a rack in the air and light. They should be boiled at least once a week.

Dry Tin Thoroughly

Always dry tinware thoroughly so it will not rust.

If you use butter spreaders they should be on the bread and butter plate off beside the spoons.

An attempt is being made to popularize British music in America. The simplest plan would be to prohibit it.

Street Cars Come Back

BERLIN, Aug 1—Street car traffic in the German capital which dropped to a very low ebb during the inflation period, is decidedly on the ascendancy again. Every week sees some abandoned line restored to service and miles of streets are today torn up as laborers replace the pre war equipment with new rails and switches.

We Thank Our Many Friends

For the success of our Electric Iron campaign which ends today.

Since July 10th we have sold 54 Electric Irons in Middlesboro. This proves our belief that the housewives of Middlesboro are progressive and appreciate Electric labor-saving appliances.

Please feel free to call on us when in need of help of any kind in solving housekeeping problems ELECTRICALLY.

REFRIGERATORS and ICE BOXES

Why spend your money for something to eat and then let it spoil when it is so simple to keep your food in perfect condition.

An ice box or refrigerator will do the work. for a short time we are going to make special prices on all our ice boxes in order to get room for our fall orders.

There will be a great deal of hot weather yet, so don't run chances. More sickness is caused by tainted food than any other way. Besides, a refrigerator will pay for itself in the food it saves during the hot weather yet to come this fall.

SONNET

Full many a flower is born to blush unseen
Flitter the heart to pluck with eager eye
Bring with a kiss the face the rose to screen
Gilbin pilchen with leaves is decay
Aron permit the buckeye to ripe
With ugly rack on Irish tail face
And from the fair in world its vice hub
Stealing unseen to wet with grace
Even so my sun one early morn shine
With all triumphant glory on hill
But out black rever but clouds nine
He rest clouded his visage from me now
Yet I'm for this my love with hath
Sun if he will may time with heaven unmarred
